

Infrastructure

The design idea is not imported. It comes out of the company's own language.

...treats ambition as infrastructure, not inspiration.

§01 THE OPENING

...treat every new market the way an architect treats a blank site.

§05 THE PEOPLE
BEHIND THE VISION

We're not predicting the next market. We're building the road to it.

§09 THE FUTURE

BH Ventures describes itself in the language of an architect. So the magazine is built with an architect's discipline: every element sits on a visible system, and nothing is arbitrary. That is the same thing the copy says — ten disciplines, one standard — said in layout instead of words.

This is not a blueprint aesthetic. Blue paper and dashed lines would be a costume. This is the discipline of one.

01	Datum line	One hairline at 62mm from trim on every page, photo or text.
02	Sheet numerals	Section numbers set as outline figures, the way a drawing set numbers its sheets.
03	Coordinates	25°12'N 55°16'E in every folio; every market carries its own.
04	Structural map	The network drawn as a technical diagram, not a decorative globe.
05	One stroke weight	Every icon, rule and diagram drawn at 0.4pt.

Drawn from the mark

Every value below was sampled from the BH Ventures logo. Nothing comes from outside it. Warmth and variety come from the photography, not from adding colours.

							
Ink #0E1B2B Primary ground	Ink Deep #0A1420 Statement pages	Ink Soft #16273B Raised panels	Teal Deep #185D58 Teal text on light	Teal #0B8F81 Fills and icons	Aqua #2DD4C0 Accent on dark	Mint #61DECE Gradient stop	Paper #FAFAF8 Light ground

Each pairing is listed with its measured WCAG contrast ratio. Colour here is an engineering decision, not a preference.

PAIRING	RATIO	VERDICT
Paper on Ink	16.6:1	Passes everywhere
Aqua on Ink	9.3:1	Passes everywhere
Teal Deep on Paper	7.3:1	Passes everywhere
Muted Dark on Ink	6.6:1	Body text on dark
Muted on Paper	5.6:1	Body text on light
Teal on Paper	3.8:1	Large display type only
Aqua on Paper	1.8:1	Never used as text

- 01 Aqua is never text on a light page — it measures 1.8:1.
- 02 Accent colour never exceeds about a tenth of the ink on a page.
- 03 Every page is either dark-dominant or light-dominant, never half and half.

Fraunces • Inter • Space Grotesk

A serif for display against a geometric sans for text.
That contrast is the difference between a magazine
and a corporate deck — and it answers the logo's all-
caps geometric wordmark instead of imitating it.

DISPLAY L • FRAUNCES 72/70

Ventures.

DISPLAY M • FRAUNCES
48/50

Ten Disciplines,

DISPLAY S • FRAUNCES 28/36

We don't enter markets.
We build inside them.

BODY • INTER 9.5/15,
OLDSTYLE FIGURES

From a single address in Dubai, BH Ventures moves cars, cargo, code,
and capital across nine countries and counting.

STAT • SPACE GROTESK 42,
TABULAR FIGURES

— Fraunces carries an optical-size axis, so the same family is dramatic at 88pt and still open and readable at 9.5pt.

BH VENTURES
— FZE - LLC —

Building the Future of Ventures.

Bridging Trade, Technology & Innovation from the UAE.

Who We Are

“Ten disciplines.
One standard.”

BH Ventures FZE LLC is a UAE-based, licensed free-zone company built around a simple conviction: opportunity has no single address.

What began as an international trading operation has grown into a portfolio of ventures spanning global trade, artificial intelligence, Web3, digital analytics, marketing, and market intelligence — unified not by industry, but by discipline.

The company operates as a builder of businesses rather than a single business itself: identifying high-potential markets, constructing ventures inside them, and connecting the partnerships that let those ventures scale. Every division — from automobile export to AI consultancy — answers to the same address in Dubai.

GLOBAL TRADE

01

New Automobile Trading (Export)

Moving vehicles out of the UAE and into new markets, built on precision logistics and trusted export channels.

02

Foodstuff Trading

Import and export of foodstuff, connecting supply chains across borders with reliability at scale.

VENTURE BUILDING

03

Web3 Venture Studio

From concept to launch, building decentralized ventures for a market still being defined.

DATA & INSIGHT

04

Digital Analytics Services

Dashboards and attribution that turn scattered data into decisions.
